PATENT INFORMATION TO INVENTORS.

The subscriber, late Assistant of the Patent Office and the Actuary of 1837, offers his professional services in applying for patents in the United States and foreign countries, and in procuring Reissues, Assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared and the necessary legal and pertinent matters pending in the Patent Office attended to.

Inventors have not only to obtain their specifications on the most reasonable terms (generally 50 per cent less than those of others in the trade) but the practical benefits of the Patent system, by securing to them the exclusive right of making, using and vending their inventions throughout the United States, besides being saved a vast amount of time, trouble and vexation, and the risk of infringements, which frequently occur for want of the services of a competent agent.

Models should be sent by Express, addressed to the subscriber, and may be received at any time during the session of Congress. Drawings for the Patent Office must be made according to the established rules, and will be executed at the shortest notice.

Inventors who may desire to secure their inventions in foreign countries, should apply at once, as the English Patent Law requires the invention to be new in that country as well as in the United States.

Terms—For all ordinary cases, Twenty-five Dollars. In all cases where advertising is necessary, Fifty Dollars. Fifty Dollars will be required for those cases in which a Caveat is filed.

Circulars containing the Patent Laws, Rules of the Patent Office, and other information sent free of charge.

THE NEW "TEMPERANCE LAW."—Under the caption, the last Democrat goes into an examination of the duty of the incoming Legislature in regard to the Liquor Law—and indicates, very *generally*, what in its opinion, ought to be done,—the editor quite carefully avoiding the troublesome task of fixing any of the *details* of a new law.

He starts with the very true remark that, "as a subject of legislation, it is not without considerable difficulties and dangers," but believes that a middle course, which shall avoid extremes, will be satisfactory. His general ideas of what the new law should *not* be are thus given, as follows:

Prohibition is one extreme. If desirable, all experience teaches that it is unattainable, and the people of this State, in the largest vote ever thrown, have given an emphatic verdict against it.

To attempt to improve things by another bold experiment, that of unrestricted sale, would be as great an innovation upon the system which the world approves, as that of prohibition, and would be about as hazardous. There should be a stringent license law, which is the middle ground between the extremes mentioned. As the use cannot be *prohibited*, the sale of drugs and drinks should be properly *regulated*, which is all that law can do to make men temperate.

It is observable that the Democrat now declares prohibition—not the present "intensified" law merely, but the principle of prohibition itself—to be one of the extremes of liquor law legislation, and he says the people of the State gave an emphatic verdict against it in the recent election.

Let us see how that is, according to the record.

The Republican party not only fully endorsed the principle of prohibition, in its resolutions, but also upheld very generally the present liquor law, and their position was endorsed by 52,000 voters. Then the Democratic State Convent on resolved in favor of a suitable *prohibitory* law, and this resolution was endorsed by 48,000 votes thrown for the candidate of that party.

We have, then, 100,000 votes in favor of some so titled a *prohibitory* law,—[illegible] BELIEVE THE GENTLEMEN WHO CALL THEMSELVES DEMOCRATS, and who passed the Augusta resolutions—and opposed to these 100,000 voters, who go either for a stringent and effective prohibitory law, or for a "suitable prohibitory law, we have just 11'000 Straight Whigs,—the only party which resolved against prohibition, and in favor of licensing the traffic under the terms of "properly regulating" the same.

Now the Democrat cannot deny that the above is a truthful statement from the record—and we suggest to the editor whether he is altogether *correct* in saying that the people have given an emphatic verdict against the principle of prohibition. He may believe and assert, to be sure, that a controlling portion of the 48,000 democratic votes were thrown by ultra temperance men, who do not think rum should be as free of sale as bread—but it does not exactly suit the Democrat's position to admit this. The platform of the party was laid down by the resolutions at Augusta,—and it they inserted prohibition in that platform, even though they were only "suitable" prohibition, still it was prohibition, and the Democrat, as a loyal party paper, is bound to say that the platform is endorsed by the votes given for the party ticket.

But the Democrat now repudiates prohibition, as being at one *extreme* of liquor legislation, and says that unrestricted sale would be the other extreme, equally to be avoided. The editor goes for a middle course,—that of "proper regulation." Now it needs but little argument to show, as we have heretofore remarked, that this idea of proper regulation, under a license system, is an utter fallacy—that the thing cannot be done. Any man may satisfy himself of that, by simply referring to his own recollection. The law of 1840, which it is said Gov Wells is in favor of substantially re-enacting, was a "stringent license law," insofar as it attempted to regulate the traffic and place it in the hands of "respectable men." But everybody knows that it had not the slightest effect in restricting the sale—that all sorts of men sold liquor, with license and without license—and that there was not the slightest difficulty in all sorts of men, whether temperate or intemperate, procuring all the liquor they could pay for. It was under the operation of that law, in short, that the Washingtonian temperance movement was found to be the only salvation for the poor drunkard,—and it was also under the operation of that "stringent" law, that the biggest dealers were enabled to cause so many of the Washingtonians to violate their pledges, and finally to subvert the whole movement. In view of these sad effects, that from[illegible] was found to be *necessary* to the permanent reformation of the inebriate and to the prevention of the ruin of young men,—by quelling the traffic, and at least driving temptation out of sight. Prohibition has done this, and has prevented much drinking, if it has not entirely abolished the traffic. It has at least enabled the people of many localities to banish it entirely.

To leave this view of the case, however The Democrat here states there will be no *precipitate* action next winter—thereby showing its fears of the effect of any action which may be adopted. It suggests that a bill be reported for a license law, and then submitted to the people. This plan for evading responsibility has been hinted at before, by some of the democratic papers—but it will hardly answer the purpose—for the people will regard the coming government as endorsing whatever bill they may submit.

And what, in the meantime, is the Democrat proposed to do with the present law? Does it propose to let a law stand, for a year or more, which, if the editor is to be believed, "*violates the rights of the people!*" Or does it propose to repeal the present law, and adopt what it calls the other extreme, and one "equally hazardous," viz. unrestricted sale, by having no law. Or does it propose to let the "intermediate" [illegible] and have the executive officers [illegible] this letting the dangerous [illegible] to the people or a disregard of an [illegible] statute, and looking them on to a disregard [illegible] law, by wet shocking their reverence [illegible] people of law? Which of these triple [illegible] does the Democrat think it wise to [illegible]

PROTEAN FOUNTAIN PEN.—This is the latest and most desirable invention [illegible] and must prove an invaluable implement [illegible] every man who does much writing [illegible] to say here that a person may write [illegible] four to six hours with one of these [illegible] taking in the truth of the statement [illegible] be perceived. Among the many commendatory notices given it, is one from [illegible] Traveller, which states that a gentleman [illegible] acquaintance has written a whole [illegible] one of these pens, without once [illegible]," and another paragraph says that [illegible] pens, in which Colt's Revolver [illegible] Cola. One will fill a dozen sheets [illegible] write a dozen sheets with a single [illegible]

[illegible] upon which it operates is a [illegible] and beautiful one—being merely [illegible] on a piston in the hollow shaft [illegible] stock, by the raising of which a vacuum is created, and ink enough is drawn up [illegible] the pen for hours. This ink flows [illegible] easy, and, so far as we have yet tried it, [illegible] interruption. The pen was patented [illegible] January.

[illegible] on sale at the bookstore of Alonzo [illegible] Bangor.

[illegible] possesses twelve dockyards, six [illegible] line, and six for smaller vessels, [illegible] arsenals, and almost exhaustless [illegible] ship building. It employs 500 [illegible] ordinary times, and 12,000 in times [illegible] war. At present the number, according [illegible] German accounts, is not less than 21,000.

CHINESE BANK.—This bank located in Shanghai [illegible] chartered by the last Legislature, went into [illegible] operation September 26, 1855. The following [illegible] gentlemen are the officers:

[illegible] Russ, President—Zeba Washburn, Cashier. [illegible] C A Russ, A H Abbott, John [illegible] F. [illegible] ford, Eli Jones, Jos. Bowman and [illegible] Abel Chase, Directors.

THE BOSTON POST assures its readers that the [illegible] public buildings, and the sidewalks [illegible] highways are to be widened to admit the [illegible] usage of ladies with their new fashioned skirts. [illegible] several gentlemen it is said, have [illegible] to quit the city, & allow their wives and daughters [illegible] to turn round.

THE PRESIDENT'S message will be withheld [illegible] long deposite in order to embrace the latest intelligence from Europe. A Washington letter says it [illegible] not even be printed until after the organization of the House of Representatives.

LATE FROM ST. CROIX.—A Reuben, 23d inst., from the yard of Mr Freeman Kennelly, a fine Schr. of 150 tons, called the "Gun Rock," and owned by S Evans, J Kennedy, Capt. C T Wallace. She is commanded by Capt. Wilson.

THE PANORAMA OF THE EASTERN WAR.—Messrs. Pepper & Ware's great Panorama of the great battles of the Eastern War will open this evening (Friday) at Norombega Hall. It is a painting of undoubted merit, and we trust our citizens will give them a full house.

Our acknowledgments are due to Thos. A. White, Esq., for an early supply of western papers last evening.

WASHINGTON RUMORS. The following is from the Washington correspondence of the New York Herald:

"I understand that it is the intention of the leaders to reverse the order of things and elect a Clerk of the House before they elect a Speaker, thereby ousting the present Clerk from acting as the Speaker at presiding officer until another is chosen, so that if there is any delay in the election of Speaker the legitimate Clerk of the House will act in the interim.

"The administration are determined to make the Kansas question the issue in the election of Speaker. Col. Richardson, I understand, says he will not run upon any such test.

Mr Mason, said of Maine is a candidate for Secretary of the Senate. This looks as though Asbury Dick he would have to walk.

The following is from the correspondence of the Tribune:

"It is absolutely impossible now to fix on any man for Speaker, upon whom a majority of the House will be likely to unite. It is pretty well understood that Lewis D. Campbell of Ohio, notwithstanding his advice to the Northern members of the Philadelphia Convention to give in to the twelfth section, will be the first candidate of the Northern Know Nothings. It is also understood, however, that sixty votes cannot be secured. It is, then, most likely that the Republicans and Northern Know Nothings will unite upon some man not especially obnoxious to either party. At present, Mr. Meacham of Vermont is thought of much more hopes of bringing about that result than any other. His long experience as a member of the House, and the ability, dignity and moderation which he has characterized his deportment on every occasion, peculiarly adapt him for the duties of presiding officer; and his devotion to the cause of freedom has never been questioned. Gen. Cullom of Tennessee is the man for Clerk. There are a dozen others here, as candidates, all of them strong men, but the General has the personal popularity with all the old members, and especially by the many independent men who he rescued the passage of the Nebraska bill, and was sacrificed for his independence. Balances them all."

The correspondent of the Baltimore Sun says:

"The Philadelphia bolters from the Philadelphia Convention have, in consequence of Thomas's platform at their late Cincinnati, upon the basis of the Missouri Compromise, or the exclusion of slavery from the new slave States from the Union. The Southern Know Nothings will not, of course, submit to the Convention with them on this platform. They are also [illegible] Northern members respecting the Order in Congress, and rendered their co-operation in the organization of the House impossible."

[illegible] have been declared incompetent witnesses in North Carolina. A large [illegible] Convention of the denomination has [illegible] against this.

Platform

Adopted by the American Party of Maine, in the State Council at Augusta, Nov. 21th, 1855.

1. An [illegible] zation law [illegible] bation of [illegible]

2. Stringent [illegible] against the fraudulent [illegible] of naturalization papers, and such a description [illegible] of the peculiarities of the person applying for naturalization as shall render such transfer impossible.

3. Opposition to all attempts to establish foreign military or political organizations to perpetuate old national prejudices, but encouragement of such a policy as shall tend to assimilate the foreign population, to sentiment and feeling with the mass of American citizens.

4. Efficient laws to prevent the deportation of criminals and paupers, by foreign authorities, to our shores; but a hospitable reception to the persecuted and oppressed of every clime.

5. The withholding of grave diplomatic and political trusts from persons of foreign birth.

6. The right to worship God according to the dictates of one's conscience, to be preserved inviolate. Resistance to any political-ecclesiastical hierarchy, which through its agents, be they pope, bishops or priests, who attempt to invade this right, or acquire political powers. Hence we regard all attempts to appropriate the public funds to the establishment of sectarian schools, all attempts to exclude the Bible as a text book therefrom, and all attempts to wrest from the laity and give to the priesthood the control of church property. We also rebuke in strong terms such sentiments as these, put forth by the representatives of the Papal Power:—"That Protestantism has no rights in the presence of Catholicism," that "Religious liberty is only to be endured until the opposite can be established with safety to the Catholic world," and that the Catholics of America are bound to abide by the interpretation put upon the constitution of the United States, by the Pope of Rome."

7. That the Bible as the source of all true and rational liberty should be made the basis of all popular education, and should be open to, and in the hands of every man, woman and child. And the man or men who may attempt directly, or indirectly, to shut it out of our schools, or keep it from the hands or hearts of our people, or any portion of them, should be deemed guilty of a crime against society and of reason against liberty itself.

Upon the questions now agitating the country, we declare

1. That the action of the legislative, executive and judicial departments of the government ought to be controlled by the principle, taught by the framers and purest interpreters of the constitution—that "*freedom is national and slavery sectional.*"

2. That upon for the country and stability of the Union, must be sought by relieving the general government—so far as its jurisdiction extends—of all connection with, and accountability for American slavery.

3. That the independence and sovereignty of the state in its legislation and judiciary must be maintained inviolate.

4. That the repeal of the Missouri Compromise was a gross violation of National faith, and that no State erected from said part of the territory consecrated to freedom by that Compact, ought ever to be admitted into the Union a Slave State.

5. That the rights of actual settlers in the territories, to the free and undisturbed exercise of their elective franchise, granted to them by the laws under which they were organized, should be promptly protected by the national executive, whenever violated or threatened.

Resolved, That in the judgment of the State Council all forms of nunciation to the admission a member to the orders should be discontinued, the condition simply being required to sign the Constitution and pledge himself to secrecy in regard to the transactions of the council. It being understood that sub-councils have a liberty to form such regulations varying from the above, as they may think proper for their own government.

SERIOUS ACCIDENT ON THE CONNECTICUT RIVER RAILROAD.—As the freight train from the west, on Saturday afternoon, was approaching Deerfield bridge at Chesterfield, and had passed within about one hundred feet, moving at the time at the rate of some eight miles per hour the wheels of the forward truck of the locomotive for some unexplained reason, got off the track. The engineer and fireman barely had time to save themselves by jumping before entering upon the high embankment, next to the abutment. The engine kept on by the side of the track, until it had crossed the first span of forty feet, and gone fifty feet on the second span, about 170 feet across, on the bridge, carrying away most of the floor timbers, and bringing up with the truck and driving wheels resting on one of truss frame, while the rear part of the engine and tender remained suspended over the river on these or four small bents reaching from side to side. The forward freight car passed the short span, completing the destruction of its flooring, and when the second came to the edge of the abutment, it plunged into the gorge, falling between the two sides into the [illegible] road timbers. The car was followed by four others, when the first car which had passed upon the second span receded and fell on the chasm with the others. A brakeman was thrown down upon one of the cars, but fortunately escaped unharmed.

The situation of the engine was such that it could not be reached for some time after the occurrence, and the fire from the locomotive communicated with the wood work, and for half an hour the destruction of the whole seemed inevitable, but at the end of that time the fire companies from Greenfield arrived and quenched the flames.

The loss is, in all $7000 or $8000.—*Springfield Republican.*

ATROCIOUS MURDER.—In Baltimore, on the evening of the 23d, a party of five young men entered the Washington Hotel, corner of Eutaw and Canada streets, and drank some liquor, which they refused to pay for. The proprietor, Eugene Brondell, attempted to help the barkeeper to put the party out, when one of them, named John Terring, drew a pistol and shot Eugene, killing him instantly. Another of the gang, named Charles Robinson, attempted to murder the proprietor by firing two balls at him, which fortunately lodged in the floor. All the parties have been arrested and committed to prison.

LIBERAL BEQUEST TO HARVARD UNIVERSITY.—It is stated that the late Leonard Jarvis of Baltimore has bequeathed one-half of the Melrose edifice, on Baltimore street, to the Presidents and Governors of the Harvard University, and the other half to the Humane Imperial Society, the House of Refuge, the Aged Women's House and the Orphans' Asylum. The estate, which is estimated at $20,000 per annum, and increasing, will be the property of Mr. Jarvis' widow during her lifetime, but after her death will revert to the above institutions.

The Chicago Journal states: In the Circuit Court of this county a verdict has been rendered for the sum of five thousand dollars in favor of Jos. L. Sawyer, of Ohio, against Messrs Frink & Walker, late stage proprietors of this city, for an injury to plaintiff by the overturning of a stage coach at Kennegan, in 1852, by the drunkenness of the driver.

On the 20th of October the French ship-of-the-line La Tage, encountered off Cadiz a water-spout, which (a few moments swept a two) her three masts. Two men were killed and seventeen slightly wounded by the catastrophe.

ENGLISH AND AMERICAN SWINDLERS.—We have not [illegible] ment in the [illegible] ners, Messrs. [illegible] courts. England [illegible] centuries [illegible] style and [illegible] principle [illegible] ing members [illegible] in retiring [illegible] failed, with a large [illegible] money to [illegible] concerns [illegible] securities [illegible] which has [illegible] For this [illegible] to fourteen [illegible] person, [illegible] sometimes [illegible] lights dur[illegible]

How a [illegible] conviction [illegible] and the [illegible] would take [illegible] the highest [illegible] of Wall [illegible] deen in [illegible] or presidents [illegible] some [illegible] ker, they [illegible] cannot [illegible] the results [illegible] it appears [illegible] they have been [illegible] fraudulent [illegible] certificates [illegible] of stock, making use of special deposits, (which is no better than embezzlement,) and squandering in high living all the funds left with them for safe keeping. To escape public indignation and the clutches of the law, they take their departure for Europe, spend a year or so in the fashionable circles of London and Paris, where they venture to return. During their absence, the indignation against them has subsided, yet they are arrested and held to bail. They have money left, and this is freely used, by which means their trial is put off from month to month, so the longer it is deferred the better is their chance of escape. In the mean time the public feeling is appeased through the press. The case of Mr. Sparks is considered a very hard one. The great respectability of his family is considered. His wife and daughters are fashionably received, and when these sort of appeals have had the desired effect, the accused is ready for trial. By great effort a jury is empannelled, each being taken to select such men as may be considered favorable to the accused. The case is tried—the jury disagree. Another trial is had. The same process is again gone through with, until by numerous delays, purposely caused by [illegible] counsel, a jury is found which renders a verdict of not guilty, or the case is dismissed. It is every respectable rogue escapes punishment. The annals of Wall street abound in cases of most flagrant and swindling dishonesty, yet we have never heard of an instance where any severe or proper penalty was inflicted. On the other hand, some poor devil who is detected in passing a two dollar counterfeit note, is sent to the State prison for five years.—*Providence Journal.*

THE FIRST CHURCH IN KANSAS.—It is now a settled matter that the first church erected in Kansas will be under the auspices of Unitarians. The sum of $5000 has been raised in the denomination for the purpose, and the agent, Mr E P. Whitman, is now on his way to the territory to superintend the work. A gentleman of this city have donated $500 to purchase a bell, on the condition that a clock should be placed in the tower so that the New England emigrants, when they are in the city of Lawrence, should be reminded every hour of home. The Sunday school library connected with this society will be one of the largest and most complete in the country. The Rev E Nason, well and favorably known there, will be the pastor of the society. He is now on the territory as the Missionary of the American Unitarian Association.—*Transcript.*

MUSICAL.—By an advertisement in another column it will be seen that a new musical company, under the title of the "Dirigo Quadrille Band," is formed in this city, who will answer all orders for dancing parties and other occasions where musical music is required. The composition contains some of the best talent in the city, whose reputation is too well known to need particular mention. Mr. Clarke was for some years the leader of Clarke's Brass Band and as cornetist for his performance. Mr. Wasgatt has an excellent reputation as a prompt and obliging business director. We have no doubt that the organization, by talent and management will prove acceptable to the community and creditable to the musical profession.—*Journal.*

POPULATION OF KANSAS.—Accounts differ about the actual population of the territory. When the census authorized by governor Reed was taken, the number of the inhabitants was over eight thousand. During the [illegible] the large emigration of last year, and begun to arrive. In one of the debates in the Constitutional Convention recently, Col Lane declared the population at but from forty to fifty thousand, whereas the late Gov. Leavenworth, declared that it was more than from twenty to twenty-two thousand. Large numbers of emigrants are now pouring into the territory from all quarters, and these figures will soon be far below the mark.

SHOOTING. Old Hicks was an awful snorer. He could be heard farther than a blacksmith's forge, but his wife became so accustomed to it, that it soothed her to repose. They were a very domestic couple—never slept apart for many years. At length the old man was required to attend court at some distance. The first night after his departure, life to her never slept a wink, she missed the snoring. The next night passed away in the same manner without sleep. She was getting quite nervous bad way, and probably would have died, had it not been for the ingenuity of a servant girl. She took the *coffee-mill into her mistress' chamber and ground her to sleep at once!*

RE-OPENING OF THE S. & K. R. R.—The cars re-commenced running over the Somerset & Kennebec Railroad, last Wednesday morning, for Waterville and Kendall's Mills, at 8.40 A. M. and 3.45 P. M., and returning from Kendall's Mills, at 10.15 A. M. and 5.50 P. M. We understand that the damages by the late freshets have been repaired, and that the road is now in fine running order.—*Journal.*

The Norfolk Argus states that last week about eighteen negroes escaped from that city from Portsmouth. They were all young, and some of them skilful mechanics, valued at $2,000 each. It is supposed that they left in some other vessel, loading perhaps in Elsner's creek, and bound for some Northern port.

RAILROAD SLANDER.—A wag in Detroit has been taking liberties with the reputation of the Pontiac railroad. He was asked whether he knew of an accident on that road, and replied: "Never, but once a middle-aged gentleman fell from the car door, and died of old age a Birmingham—half way."

The following singular death appears noticed in a late number of the Natchez Courier:

"Died, of medical quackery, at his father's residence in Franklin county, Mississippi, on the 25th of October, Silas W Smith, aged 10 years."

What a pity more [illegible] were placed on the tombstones of all who die of the same disease!

FROM TEXAS. Galveston advices state that Hon. Thos. J Rusk has been elected by the Legislature of Texas a U. S. Senator from that State.

MONUMENT. In the New York Board of Aldermen, on the 25th, a committee reported in favor of a proposition from Mr Laing, to erect a monument of iron, 600 feet high, on the Battery, in honor of George Washington, with a statue 23 feet in height on the summit—the whole to be finished within ten years.

Barnum has sold the American Museum to Messrs Green, Wood & Butler, and is making arrangements to build a large dramatic establishment on the plan of Astley's in London, with a circus attached.

RAILROAD RACE.—Narrow Escape.—As the train for Gorham was leaving the Portland station on the afternoon, a horse and chaise were driven across the track in front of the locomotive, when the locomotive was within ten feet of it. The engineer reversed the engine, with the usual result—breaking up the shafts from the chaise, and carrying the animal some distance on the track. The chaise was overturned and the driver buried under the ruins, within two feet of the track. The horse was killed, but Neal escaped with only a shaking in the mud.

Portland Advertiser.

FIRE—ALMOST.—The store of our friend Hayes narrowly escaped burning on Friday night. By the explosion of a lamp, a pile of dress goods was ignited, but the lamp was extinguished by the sprinkler, under the impression that the damage amounted to the amount of about $135.

Holloway's Pills, an unfailing Remedy for all disorders of the Chest and Lungs. Miles Thompson, of Little Falls, New York, was certainly in a most deplorable state of health the weeks ago. His lungs, so the doctors told him, were completely gone, his cough, and in fact his whole body, had scarcely an hour of rest day or night than it became. In addition to this, he had a cough which completely shook him to pieces, (these are known words). He has just called on Professor Holloway & informs him that all these complaints have been removed by Holloway's Pills, after he had used them for several weeks according to order, and he considers himself better than ever he did in his life. These Pills will positively purify the blood, regulate all the functions of the stomach and bowels.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* preventation against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and are strictly safe.

The Lamps will be sold at wholesale or retail, as low, as the ordinary Camphene and Fluid Lamp, by S. RICKER, 161 Main Street, Bangor, Me., dealer in Lamps, Chimneys, Glass, and Crockery Ware.

(C tv papers copy)

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. Long Established

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description whether of children or adults, of recent or long standing

PREPARED ONLY BY

E. SADDLER CLARKE,

Sole Proprietor Cornishville, Mason.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power over coughs and colds of long standing and especially in cases of obstinate coughs and lingering Coughs is generally allayed by the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, thereby relieving the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep who for weeks had been deprived of that blessing

Sold in full bottles 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each

Extract of a letter from Daniel Adams Esq., of Brewerville, Maine

Farmer, Feb 1855

To the Wistar Clark Dear Sir—The bottle of Cough Mixture which you left with me is out—it did more for my family than any medicine we have ever used—and especially in the case of my little daughter, who had been afflicted with a long and severe cough—that has entirely subsided

From Rev Jesse Hunt Lewiston Falls

(See Clause—Every bottle of the Universal Cough Mixture which you left with me is out—it did more for my family than any medicine we have ever used—and especially in the case of my little daughter, who had been afflicted with a long and severe cough—that has entirely subsided

From Rev Fletcher Chase, agent for North Dunmont, Maine

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place Several who had been given up by the physicians with consumption, and many of the most inveterate coughs and colds have been entirely cured by the Universal Cough Mixture

From Mrs. Hobbard, Thorndike, Me

Feburary 1 1855

Dear Wistar Clark, Dear Sir—I have just finished one bottle of your Universal Cough Mixture and it has done me more good than any medicine I have ever taken for the cure of several physicians, without other relief, and by your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to direction on the label, by which a few days I was entirely cured

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful safe, and agreeable physic ever offered to the public

THE success which attends this long felt public want, is the best evidence that the medicine is all over entitled to the love of Pills or Powders that have been so widely heralded forth to the world as a panacea for all the ills that flesh is heir to. Only one trial is only required, and I feel confident every person will be better pleased with it than any other physic ever offered to the public. It is purely vegetable, and may be taken at all times of the day without any restraint from diet, and is the only one ever offered to the public that will not require the use of mercury or other dangerous drugs to be combined with it to make it operate. It is the only one that has ever been placed before the public that will not require the use of mercury or other dangerous drugs to be combined with it to make it operate. It is the only one that has ever been placed before the public that will not require the use of mercury or other dangerous drugs to be combined with it to make it operate.

TESTIMONY FROM MAINE

Capt Daniel Wood of Franklin Maine, July 16 1853, says 'I was taken sick one year ago last April upon my passage from Havana to Charleston S C At the latter place I took medicine and procured a physician but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper containing your advertisement of "Hoofland's German Bitters" I sent for some immediately This was about 10 o'clock at 11 o'clock I took the first dose and another at 6 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore Charleston and the West Indies Islands ever since I have now given up going to sea and reside at this place where you should have an agency, as you could sell large quantities of it

Jos B Hoffman Co Ereskine Isle Aroostook Co Maine April 24 1854 says 'We herewith send you a certificate of a cure effected by the use of *only one bottle* of the German Bitters We think Mr Clark to be a man of identity, and have no doubt of the truth of his story

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years and about the first of January last was taken down and confined to her bed The pain in her side was very severe, she was being troubled with pains between her shoulders and in her breast Upon reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to you and purchased *one bottle* She had taken but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters WILLIAM CLARK

Saltmon brook, Aroostook Co, Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *LIVER COMPLAINT AND OF HUMOR* from the worst Scrofula down to a common pimple. He has tried it in over seven hundred cases and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst cases of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have it not, as all the wonderful medicines of the day do that is common seed, growing upon the pastures and along old stone walls. Should these facts, if you have a humor it has to get out. There are no if nor ands about it, nothing some paper but not yours! He has peddled over a thousand bottles out in the vicinity of Boston, and knows the effect of it in every case. It is already dispensed of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children whose flesh was soft and flabby restored to the perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure It gives great relief in catarrh and dizziness, some who have taken it have been costive for years and have been regulated by it. Where the body is sound it works quite easy but where there is any derangement of the functions of health it will cause very unpleasant feelings, but you must not be alarmed—they always disappear in from four days to a week There is never a bad result from it—on the contrary when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet over necessary Eat the best you can get and enough of it

This is to certify that H H HAY Druggist, Portland, is the duly authorized GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK in the NERVOUS DEBILITATED, and the INFIRM, of all climates, ages, sexes, and constitutions Professor Holloway personally superintends the manufacture of his medicines in the United States, but owns them to a free and enlightened people in the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly compounded to operate on the stomach, the liver the kidneys, the lungs the skin and the bowels correcting any derangement in their structure, purifying the blood the very fountain of life, and thus curing disease in all its forms

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver Stomach and bowels which are the cause of nine tenths of all the complaints generally. Taken on a sick healthy tone to these organs, however much deranged, and when all other means have failed

General Debility Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses Learned Colleges admit that this medicine is the best and speedy ever known for persons of delicate health, or where the system has been impaired as it is by navigating properties never fail to afford relief.

Female Complaints.

No Female young or old should be without this celebrated medicine It corrects and regulates the monthly courses at all periods, acting in many cases like a charm It is also the best and safest medicine that can be given to children of all ages and for any complaint to which females are subject, consequently no family should be without it.

Holloway's Pills are the best remedy known to the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fevers and Ague	Piles
Colds	Inflammation	Rheumatism
Chest Diseases	Jaundice	Retention of Urine
